Match Play Opens Alabama Golf Association Meet

GADSDEN, (AP)—Match play opens today in the Alabama Golf Association's 34th annual tournament with Frank Horner of Montgomery and Tommy Ryan of Greenville holding medalist honors.

Horner, a former champion, and Ryan, ex-Louisiana State player, shot par 71's in yesterday's qualifying round at the Gadsden Country Club despite a rain-soaked course.

A field of 113 competed.

Gardner Dickinson, Jr., of Dothan, the defending champion, decided not to try for the qualifying medal and was placed automatically in the championship bracket of 32.

In addition to Horner and Dickinson, former champions making the title division were Harry Pritchett (73) of Tuscaloosa, Gordon Smith, Jr. (76) of Mobile and Glen Crisman (78), of Selma.

Another ex titleholder, Johnny Thames of Birmingham, finished in a 11 way tie at 79 and lost out in a sudden death playoff among the 11 for the last four places in the championship.

Nelson (Buddy) Debardeleben of Birmingham, medalist and runner-up to Dickson in the 1949 tournament at Montgomery, got in the top flight with a 75.

Woodward Country club of Birmingham won the team trophy with a total of 307. Birmingham Country club's team took second, a stroke back of Woodward.

Huntsville's father-son combination of Bob Lowry and Bob, Jr., also made the title division. Bob, Jr., got in with a 75, while his father carded a 79 and had to win his berth in the playoff.

Others finishing with 79's in addition to Lowry, Sr., and Thames were J. B. Morrow, Selma; Bobby Reich and Emmitt Cassidy, both of Gadsden; Paul Stapp and Paddy Laclair, both of Birmingham; Pack Past, Jasper; Red Coats, Montgomery; and Dick Suttle and Roy Downey, also of Gadsden.

Lowry, Morrow, Reich and Cassidy shot par 4's on the first hole of the playoff to win their places in the championship bracket.

Winners in this morning's round of match play will pair off in the championship flight for another round of match play in the afternoon. Lowest will drop down to the second flight.

The same plan will be followed by the next 64 in the second and third divisions.

The championship match will be played at 36 holes Saturday.

Bob Powell of Montgomery, winner last year, was medalist in the senior division for golfers 55 or older.

The A.G.A. holds its annual meeting tonight with main business the awarding of next year's tournament. Dothan and Selma Country clubs are expected to make strong bids for the 1951 meet.

Pairings in the championship division (qualifying scores in parentheses):

Gardner Dickinson, Jr., Dothan vs Tip Till (76), Montgomery;

John Rogers (75), Birmingham vs Sam Morgan (78), Selma.

Harry Pritchett (73), Tuscaloosa vs Bob Carr, Jr. (77), Jasper.

Soviet Russia Deploys Subs In War Sector

About 800 Naval Craft Reported In Korean Zone

By ELTON C. FAY

WASHINGTON, (AP) — Russia is belived to have an assorted collection of about 800 naval craft deployed near the Korean war area—including between 70 and 80 submarines.

Naval sources here figure that perhaps a third of this school of submarines are the new XXI Snorkels.

Although the 800 total estimate is numerically big, there is no present evidence that it comprises anything like a balanced naval force. Those studying the situation believe many of these vessels are small craft of various types and that certainly nothing bigger than cruisers are in the area.

So far as can be determined, the Russian Navy still possesses no aircraft carriers.

One unknown factor seems to be how many of the smaller Soviet vessels may be landing craft or types that could be used in emergency for an amphibious operation.

The presence in the Far East of any sizeable number of landing craft could be of grave concern to American forces. They could be used to provide an amphibious "life" for North Korean flanking operations down the South Korean Coast lines. Or they might someday be used in an attempted operation against the American defense bastion in Japan, should Russia and the United States fall into gloves-off war.

However, it is the Russian submarine force that is drawing most U. S. attention.

As deployed, the Red sub fleet in the Far East seems to have as its main job the potential duty of cutting the Asiatic-Indonesian lifeline along which the United States would send help in event of general war in the Orient.

An almost equally important mission is to carry on reconnaissance of American and British naval ship, transport ship and air movement in the Western Pacific and the inland seas bordering Eastern Asia.

If there have been any sightings of suspicious actions by Russian submarines in those waters, the Pentagon has kept it secret.

47th Producing Oil Well Brought Into Production

TUSCALOOSA, (AP) — Alabama's 47th producing oil well has been brought in at the East Gilbertown Field, State Oil-Gas Supervisor Walter B. Jones said today.

The new producer is Magnolia Petroleum Co.'s No. 2 Chestnut-Rurred in Section 2, Township 10 North, Range 3 West. It was brought in at 3,360 feet. Dr. Jones said no figures were available yet on its rate of flow.

Magnolia had received a permit to drill the wildcat test June 7.

The State's 46th producer was added to the East Gilbertown Field June 21. All the producers are in Southwest Alabama.

Clarke county has one well, 21 are in West Gilbertown and 25 in the East Gilbertown field of Choctaw county.

Three wells were abandoned during the past week, and one permit was issued for another test. Dr. Jones said.

Those abandoned as dry holes were Richard L. Lawrence, Jr.'s No. 1 W. T. Trice in Choctaw at 3,472 feet the No. 1 G. W. Clanton, drilled by James L. Duffy and Woodson Diamond, at 3,908 feet, in Clarks county, and the No. 1 C. E. Bochelor, drilled by John S. Neilson and W. E. Walker, at 6,938 feet, in Escambia county.

The new permit was to M. P. Boustog for the No. 1 J. C. Manley in section 26, T12N, R4W of Choctaw.

Be Careful About Typhoid On Vacation

MONTGOMERY, —"Now that vacation time is here, be careful about typhoid."

That was the advice given today by Dr. D. G. Gill, State Health Officer, who reminded Alabamians that there is usually an increase in typhoid incidence in hot weather.

"If you are planning a vacation trip, be sure to find out about the water you will drink while away from home," he urged. "If it comes from public water supplies, you may drink it with assurance of its safety. But beware of water from untested wells and from rural springs. Even if they look pure and sparkling, they may be dangerously contaminated, with enough germs to start an epidemic. Drink only water you have good reason to know is safe."

The State Health Officer also warned against the danger of impure milk. To be on the safe side, he suggested, it is wise to drink only pasteurized milk handled and served under clean sanitary conditions.

OFFENSIVE LAUNCHED

MANILA, (AP)—Philippine ground forces today began a major offensive against 500 Hukbalahaps reported hemmed in near Batangas in Southern Luzon. A government spokesman said the operation might take seven days.

A study of their language shows conclusively that gypsies originally came from India, according to the Encyclopedia Britannica.

The staple food of big and little fish is plankton, a great variety of plants and animals carried by tides and current.

Natural Military Obstacle Now Aids American Soldiers

(By The Associated Press)

American and North Korean forces are lined up opposite each other today along the Kum river, one of South Korea's principal streams and a natural military obstacle.

The troops are deployed about 13 miles North of Taejon where the river winds through a region of low but steep ridges and hills.

This natural defense line may become the point of "no retreat" for the gallant American infantrymen who have been slowly driven back by the Red's superior numbers and heavier fire power.

The general direction of the Kum is from East to West. In its lower reaches it is a sea level estuary, one to four miles wide, with extensive mudflats.

North of Taejon the river at some points narrows to 200 yards, but generally is a quarter of a mile wide, shallow, with banks 10 to 15 feet high. A broad flood dike, 30 feet wide at the base, protects the South shore at some points.

This is Korea's rainy season and in a matter of hours the Kum, like other Korean rivers, can become a raging torrent, running bankfull.

The surrounding hills and rice paddies in the river bottom offer little concealment. However, there is plenty of room for military deployment despite the scarcity of good roads.

A headquarters spokesman in Korea said a railroad bridge and other spans across the Kum have been destroyed.

Dixie Scores New Victory Against Civil Rights Plan

WASHINGTON, (AP)— The new Southern victory in the Senate fight over Fair Employment Practices (FEPC) is expected to provide a red-hot political issue for the congressional election.

Administration Democrats and Republicans are both set to blame each other for the Dixie triumph yesterday which killed off all chances for the controversial civil rights measure at this session.

Truman Democrats contend that a Republican-sponsored rule passed last year stymied the bill. Republicans say the Democratic party is so split it can't deliver on its civil right promises.

The end for FEPC came when Senate Democratic Leader Lucas of Illinois sought unsuccessfully for the second time this year to win approval for debate curbs to bring FEPC before the Senate for action.

Fifty-five senators voted for the motion, nine less than the 64 required by the rule for debate limitation. Thirty-three senators voted against it.

The victory was the second in two months for Southern lawmakers who regard FEPC as the pivot point for the Administration's "Fair Deal" civil rights program. Last May 19 the Senate rejected a similar move, 52 to 32, or 12 less than the required 64.

The bill would have set up a commission empowered to issue orders against discrimination in employment because of race, creed or color. Twenty-two Democrats and 33 Republicans blocked it.

Senator Republican Leader Wherry of Nebraska immediately issued a statement saying that President Truman and his lieutenants "failed to keep their campaign promises to the people."
