Colbert To Accept Bids For Coal

The Colbert County Board of Education will accept sealed bids on 500 tons of stoker coal from licensed coal dealers in Colbert County, announced W. W. Hester, commissioner of schools.

However, the Board reserves the right to reject any or all bids, said Mr. Hester.

Brilliant, New River, and Black Creek coal are preferred but other kinds with analysis similar will be considered.

Stoker coal from Wood-Burleson or C. O. Mays' Washers has proven satisfactory, but the Board of Education will not necessarily restrict the bid to coal from these two washers.

All bids must be turned in personally to Kenneth H. Bishop, chairman of the Colbert County Board of Education, at the next Board meeting which will be held at 4:30 p.m. Friday at which time the bids will be opened.

More Confusion Than UN Meeting

EDMONTON, Alta. (AP)—Scene in a busy Edmonton hospital yesterday:

A credit manager (A) spoke only English, the outgoing patient (B) only Italian.

A painter (C) working nearby, spoke Italian and French, but not English.

The cashier (D) spoke English and French, but no Italian.

B told C who told D who told A, who got the information he wanted: how much to be paid on the bill.

Examples of bamboo and tobacco have been grown at Lewiston, Ida., only 200 miles from the Canadian border.

TO PRESENT AWARDS—J. C. McGlon, vice president of the 12 Southern states, International Association of Machinists, will present badges and certificates to 12 long-service members at a meeting of the two locals Friday night.

Machinists To Honor Faithful

Muscle Shoals Lodges 66 and 1189, International Association of Machinists, will pay tribute Friday night to 12 fellow members who have completed a total of 390 years of I. of M. service, W. H. Johnson, business manager of District Lodge 92 reported.

The 12 men, with service ranging from 15 to 45 years, will be guests of honor at a meeting sponsored by the two locals at the Machinist's building, Jackson Highway, Sheffield.

J. C. McGlon, general vice-president of the 12 Southern states, will give the formal address and present the badges and certificates to the 12 members.

The 12 are all employes of Reynolds Metals Co. and TVA. Scheduled to receive badges and certificates are: 45 years: E. I. Lucas, TVA; 35 years: R. W. Boone, Reynolds, A. J. Malaspina, Reynolds, T. L. Williams, TVA; 15 years service: S. C. Goidell, TVA, J. C. Jones, TVA, A. J. Jordan, TVA, W. R. Lemay, TVA, J. M. Norris, TVA, L. T. Stidham, TVA, John G. Williams, TVA.

Livestock At Athens

Athens Livestock (Limestone County Stockyards) Tuesday, June 7 (By Alabama and U. S. Departments of Agriculture)

TUESDAY'S ACTUAL SALABLE RECEIPTS: CATTLE & CALVES 400 HOGS 198 SHEEP 10. Receipts increased; trade active; bulk of run slaughter calves, vealers, slaughter cows and moderate number of feed steers and heifers. Compared last Tuesday, slaughter steers and heifers strong to 50c higher; slaughter cows steady to 50c higher, with advance on strongweights. Canner and Cutter cows; 300-450 lb. slaughter calves, slaughter bulls and stocker steer calves and feeder steers mostly steady; vealers and lightweight slaughter calves under 300 lbs. 50c-$1.75 higher.

Good and low—Choice 450-800 lb. slaughter steers and heifers 18.50-21.30; Commercials 15.50-18.40; Cutter and Utility, mostly heifers, 11.00-15.00; few Good slaughter steers over 800 lbs. 20.40-21.20; Utility and low - Commercial slaughter cows 10.70-13.10; Canner and Cutter cows 8.00-11.00; Shells 7.50 down; Canner slaughter bulls 10.50 - 11.75; few lightweight Canner bulls down to 8.80; few Good stocker steers over 500 lbs. 17.80-18.00; Common and Medium stock steer calves and yearlings under 750 lbs. 12.75-17.70; Common stock cows ~$41.00-80.00; Common and Medium stock cows with calves at side $55.00-100.00 for the pair.

Choice and Prime vealers 20.00-21.75; Commercial to Good 14.75-19.25; Utility vealers 13.50-14.75; Good and low-Choice 300-450 lb. slaughter calves 18.00-19.25; Utility and Commercial heavy calves 12.00-17.50; Cull calves 12.00 down.

HOGS: RECEIPTS increased; trade active; butchers fully $1.00 higher; best sows steady; Choice 180-220 lb. slaughter barrows and gilts, one price, 19.25; Choice sows 18.00.

Ft. Gaines Dam Plans Completed

MOBILE, Ala. (AP)—Although efforts to obtain funds presently are stymied in Congress, preliminary plans for the Ft. Gaines lock and dam on the Chattahoochee River in Southwest Georgia have been completed by the Army District Engineer at Mobile.

With a length of 14,000 feet, the multi-purpose dam would be the largest of four authorized by Congress for initial development of the Apalachicola, Chattahoochee and Flint River system in Georgia, Florida and Alabama.

The four are the Jim Woodruff, Columbia, Ft. Gaines and Buford.

When completed, they would provide a nine-foot channel for navigation from the Gulf Intracoastal Waterway to Columbus, Ga., on the Chattahoochee and to Bainbridge, Ga., on the Flint.

They also are planned to reduce floods in the upper Chattahoochee Valley, produce about 818,500,000 kilowatt hours of hydroelectric energy each year and create three large lakes for recreational purposes.

Over half, or 436,000,000 kilowatt hours, of the proposed energy would be sufficient to serve about 185,000 residential users.

To be located about 28 miles above the Columbia Dam and about 1½ miles north of the town of Fort Gainer, it would begin at high ground on the right bank of the Chattahoochee.

It would consist of an earthen dam 6,000 feet long; a powerhouse in the present river channel with the intake section constituting part of the dam; a concrete gate-controlled spillway section; a non-overflow concrete gravity section; a lock section, and a non-overflow earthen section.

The structure would be about 115 feet high and the two chambers in the lock would have a maximum total lift of 92 feet. The two chambers in the lock would have usable lengths of 450 feet and clear widths of 82. The initial powerhouse installation would provide for at least 130,000 kilowatts.

The reservoir created would extend about 86 miles upstream to Columbus and cover approximately 46,000 acres in Henry, Barbour and Russell counties in Alabama and in Clay, Quitman, Stewart and Chattahoochee counties in Georgia.

Col. Harold E. Bisbort, district engineer, said detailed plans now are being prepared for the flanking earthen embankments. Construction can begin whenever funds are made available by Congress, with the completion time dependent on the rate at which funds are appropriated.

Bisbort said if money is made available so work can be carried on at what the engineers regard as the most economical rate, about seven years would be required. The over-all cost of the unit is estimated now at $86,400,000.

The Jim Woodruff lock, dam and powerhouse, southernmost of the four in the river system development program, is about 85 per cent complete.

It is located just below the confluence of the Chattahoochee and Flint Rivers on the Apalachicola River near Chattahoochee, Fla., and will provide navigable channels in the Flint to Bainbridge and in the Chattahoochee to Columbia, Ala. An average of 212 million kilowatt hours of electric energy will be provided annually at this dam.

About 47 miles to the north on the Chattahoochee is to be the Columbia lock and dam which has not yet been started. The engineers estimate that because this installation will be smaller and simpler in structure it would not be necessary to start it until the Ft. Gaines project is well under way. The two then could be completed at the same time.

The Columbia is to be about 2½ miles south of Columbia, Ala., and is designed to extend the channel from the north end of the Woodruff reservoir to the Ft. Gaines dam. No power installation is planned.

The Buford dam, now about 40 per cent complete, is going up on the Chattahoochee, near its headwaters, about 35 miles northeast of Atlanta. It is designed to control floods in the upper valley, assure navigation water for the lower part of the system and to produce about 170,500,000 kilowatt hours of electricity.

Sterling Hi Has Honor Day

Negro students, who have distinguished themselves in any outstanding manner during the school year 1954-55 were given certificates and awards Thursday, June 2, at Sterling High School, Sheffield. A special assembly, presided over by the newly elected Student Council officers, was held in their honor.

Citations were given 43 perfect attentats and 90 students who had throughout the year, maintained a scholastic average of B or above.

Participation awards from the various departments were given as follows: Home Arts—6, Commercial Arts—7, Athletic—13, Music: Elementary Rhythm Bands—119, Flutophone Band—81, High School Band—40, Elementary Chorus—28, High School Chorus—55, while 8 Y-Teens, 18 Girl Scouts, and 16 Boy Scouts received awards also.

Top awards went to the following Seniors: Gloria Scruggs—First honor, Music and Band medals; Frances Watt—Second honor, clerical services, Best All-Around-Girl, and band medal, William Jackson—Best All-Around-Boy, Third honor, Athletic and Band Medal, Elizabeth Hayes—Citizenship.

During the assembly the Lunch Room and Janitorial Staff also received recognition for efficient services rendered the school.

"Scot free" originally meant without payment of a scot, or tax. Today, the expression means "safe" or "without penalty."

DR. HARRIS

REV. ARMSTRONG

At Tuscumbia Methodist:

Dr. Pierce Harris To Conduct Revival Here

Dr. Pierce Harris, pastor of the First Methodist Church, Atlanta, will conduct a revival meeting at the Tuscumbia Methodist church from June 27 through July 3, it was announced yesterday.

The Rev. Harry P. Armstrong, associate pastor and director of music at the same church, will serve as song leader for the services.

Dr. Harris, pastor of the Atlanta church for 14 years, is noted for his use of appropriate humor in his sermons. A native of Georgia, where his father was a member of the North Georgia Conference of the Methodist church, he is widely known as a speaker, making several hundred addresses a year to church groups, conferences and conventions.

His church in Atlanta has added approximately 4,000 new members since he assumed the pastorship in 1940. The church has the record of having added at least one new member a week for the past 13 years.

Mr. Armstrong is one of the outstanding choir directors and choir leaders in the United States. Before coming to Atlanta in 1940, he was director of music and associate pastor of the Travis Park Methodist church in San Antonio, and was at the First Methodist church in Birmingham.

Manhattan's Beer License Restored On 'Probation'

The Sheffield police and fire chiefs were authorized Tuesday night to work out an arrangement with the Southern Railway whereby the railroad could be notified in time to eliminate blocking of ambulances or fire trucks at the Montgomery Ave. crossing by the city commission.

A letter from railway representatives asking that such a system, preferably a buzzer in the dispatcher's office, be set up, in order to prevent blocking of the street.

In other business, the beer license of Floyd Cecil Stidle, operator of the Manhattan Club, Jackson Highway, was returned to him for a probationary period of four weeks after which the commission will reconsider his licensing.

Mr. Stidle's license was revoked at the last meeting.

In other business, the Alabama-Tennessee Gas Co. was authorized to relocate certain gas lines near the Jackson Highway.

The city entered into an agreement, relative to the placing of heavy guage culverts under the Southern Railway right of way on the Georgia Ave. storm sewer.

Canada's area is 30 times that of the British Isles.

Work, Sleep, Play In Comfort

Without Nagging Backache

Nagging backache, headache, or muscular aches and pains may come on with over-exertion, emotional upsets or day to day stress and strain. And folks who eat and drink unwisely sometimes suffer mild, bladder irritating conditions with uncomfortable feeling.

If you are miserable and worn out because of these discomforts, Doan's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys—tending to increase the output of the 15 miles of kidney tubes.

So if nagging backache makes you feel dragged-out, miserable...with restless, sleepless nights...don't wait...try Doan's Pills...get the same happy relief millions have enjoyed for over 60 years. Get Doan's Pills today!

What every good cook knows:

Just a little difference in ingredients makes a big difference in cooking results

Snowdrift is just a *little lighter* than any other shortening — and that can make the big difference in giving your family *lighter, more digestible fried foods.*

Snowdrift gives *just a little more safety* than ordinary shortenings, because it fries perfectly at correct high temperatures. That can make the big difference in *digestibility* of fried foods.

Snowdrift's ingredients are just a *little costlier* than any other solid shortening's (yet you pay no more). That can make the big difference in *better tasting foods*, whether fried or baked.

No other shortening at any price is so creamy, so digestible – and so light!

Legion Post 11 Meets Friday

Florence-Lauderdale Post No. 11, American Legion, will meet at the Legion Home Friday night at 7:30 o'clock when nominations for the various offices for the 1955-56 Legion year will be opened, B. C. Morrow, commander, announces.

Commander Morrow is completing his second year as commander of Post 11, the first member of the post ever honored with that distinction, but will continue in the official family of the Legion in Alabama having recently been elected first district commander. He will take office after the annual convention in Huntsville in July.

Also plans for a large delegation to attend the State Convention will be made.
