Citizens Thanked: Florence Completing Street Program

The three men most responsible for the now concluding city-wide street resurfacing program in Florence—Street Commissioner Alvah E. Hall, City Engineer William A. White and Street Superintendent...

Approximately 27,000 square yards of surfacing was applied with a total of 24,465 cents per square yard... The city officials in charge of the program say that it is not expected that the life of the resurfaced streets will be as much as the 30 years previously experienced...

After the city engineer advised that a complete rebuilding of the street surface be undertaken so that maintenance costs would be minimized and extended life would be available for a period of 30 years...

The first National Book loaned the city \$12,000 at a low rate of interest with which to carry out the resurfacing program...

After cleaning the streets an application of 48 cubic yards of crushed limestone was placed on the streets but, then a layer of 1 1/2 inches of asphalt was placed on the streets but, then a layer of 1 1/2 inches of asphalt was placed on the streets...
