What every good cook knows:

Just a little difference in ingredients makes a big difference in cooking results.

Snowdrift is just a little lighter than any other shortening — that can make the big difference in giving your family lighter, more digestible foods.

Snowdrift is pre-whipped just a little longer than ordinary shortenings. That can make the big difference in quicker and better blending for perfect texture every time.

No other shortening at any price is so creamy, so digestible — and so light!
