Avoids Quarrels Over Meeting:
Eisenhower Master At
Keeping Everyone Happy

By JAMES MARLOW
Associated Press News Staff
WASHINGTON (AP)—President Eisenhower, who used to be described as a political novice, is a master at not making people mad. He came through a difficult question this week in typically good condition.

Would he meet with the heads of the British, French and Russian governments to talk peace? He didn't quite say yes. He left the whole idea of such a meeting a shadowy something in the future.

Yet, because of the way he said it, both Sen. George D. Aiken and Sen. Charles McNamara could take comfort from it. But, before he came through a difficult question this week in typically good condition.

For a president, Eisenhower has been amazingly free of personal attacks and mudslinging. He's given few people an opportunity to get publicly angry at him. He has consistently avoided saying anything publicly to hurt people's feelings.

British Angry
Accuse Gromyko

LONDON (AP)—British angrily accused Soviet Deputy Foreign Minister Andrei Gromyko today of "breach of secrecy" in all-out talks with the U. S. General governing the five-power disarmament conference in Geneva here.

The British Office, in an unusually strong statement, complained for making Gromyko a chief Soviet delegate at the talks, accused the West of attempting to "purge" before, an ambassador and Moscow. This is the Russian news agency.

A spokesman said repeated Soviet charges from the conference were "all out" for propaganda and not for talks which might make progress. The cable radio carried in the interview with Gromyko early today.

Government, Telephone Lines Severed:
Important Phone Cable Is Shotgunned
E. S. Sockwell
Injured In
Collision

ATLANTA (AP)—A twin cable carrying important telephone traffic between Atlanta and Charlotte was shotgunned temporarily out of commission last night as the nine-state Southern Bell Telephone strike continued.

The disconnection of this line with 386 pairs of wires was reported by the company today along with damage to three other cables in the Atlanta area. Reports of similar incidents in other areas of the company's operation also continued to pile up.

The CIO Communications Workers of America, which has repeatedly disclaimed any knowledge of the strike, said it was not charged the company with attempting to "intimidate and threaten" the strikers. It declared that the firing of workers in Valdosta, Ga., last Friday and Jellison, Ga., on charges of attacking non-strikers, was a "pressure tactic."

A Bell spokesman said repeated charges from a shotgun and rifle were fired into the Atlanta-Charlotte cable near Snellville, just outside of Atlanta. It described the cable as including long distance circuits, private lines, radio, wire picture and teletypewriter circuits and some government service.

The cable was virtually severed by the blasts. The company said service was re-routed and the damage was repaired by early morning.

Bell reported that a Charleston, S. C., motorist, who was driving on the night, overtook a car and struck it, killing the driver and injuring the passenger. The car was carrying a family of four.
